

Node.js Exercises

Exercise 4

Create a new folder and initialize the project with npm init.

Install express and Joi packages.

Create an index.js file, import the packages and initialize the server as shown below

```
const port = process.env.PORT || 3000;  
app.listen(port, () => console.log(`Listening on port  
${port}...`));
```

Create CRUD methods for the PetMarket supplies.

Verify the payload using Joi
